## LOUISIANA

## **2024 Early Education & K-12 Policy Statements**

### **Early Childhood Care and Education**

Ellevate Louisiana continues to support the proposed \$87 million for Early Childhood Education funding in HB1 and requests recurring appropriations into the Early Care and Education Fund. Ellevate also supports legislation to create a public, user-friendly data dashboard for early care and education in Louisiana. We consider both to be of urgent importance to families, to growing our workforce, and to the futures of our youngest citizens.
